SKILLS

Languages: C++, Python, C, Java, ReactJS, JavaScript, CSS
Tools/Platforms: MongoDB, Tableau, ETL, Docker, MS SQL Server, Figma, Excel
Soft Skills: Problem-Solving, Team Player, Project Management, Adaptability

WORK EXPERIENCE

Healing2Peace Nov' 22 – Apr' 24
Digital Marketing & Web Development – Healing2Peace LLC

- Managed social media platforms, implementing engagement strategies that increased audience interaction and lead generation.
- Developed and optimized web solutions, enhancing site functionality and user experience.
- Designed the company's logo, ensuring brand consistency and visual appeal.

TRAINING

Board Infinity (Edtech Company) Jun' 23 – Jul' 23
Machine Learning & AI using Python, Tablue, SQL and Excel

- Gained hands-on experience in data preprocessing and machine learning model training using Python, Jupyter, SQL, and Excel, and performed data visualization using Tableau.
- Applied Machine Learning techniques, including regression, classification, and clustering, to analyze and interpret data effectively.
- Developed and optimized predictive models using feature engineering and evaluation metrics to enhance accuracy and performance.

PROJECTS

Currency Converter | *Python, API Integration* May' 24

- Developed a highly accurate currency converter using Python, ensuring seamless real-time exchange rate updates via API integration.
- Ensured precise calculations and optimized performance for quick and reliable currency conversions.
- Integrated live data from an appropriate API to support conversions between multiple currencies without errors.

Watch App UI | *Figma* Apr' 24

- Designed a sleek, elegant, and highly responsive watch app UI using Figma, ensuring a seamless user experience across various devices.
- Focused on a clean and intuitive design, enhancing visual appeal and usability, which resulted in a modern and sophisticated look.
- Dedicated four days to meticulously crafting and refining the interface, optimizing every detail for aesthetics and functionality.

Jewelry Shopping System | *Java* Jun' 23

- Developed a Java-based inventory management system for a jewelry shop, tracking stock levels, price per unit, and purity, ensuring 100% accuracy in inventory updates.
- Implemented an automated pricing model that calculates total cost based on purity, optimizing transaction transparency and reducing pricing error.
- Designed and integrated a secure transaction module in Java, streamlining payment processing and enhancing system reliability.

CERTIFICATES

Machine Learning and AI | Board Infinity Aug' 24
Communication Skills | Master 26 Feb' 24
Python | XomaxEDU Dec' 23
IoT | Yaduvanshi Group of Schools Sep' 22
Central Vigilance Commission | Central GOV, New Delhi May' 21

EDUCATION

Lovely Professional University Phagwara, Punjab

Bachelor of Technology
Computer Science and Engineering; CGPA: 7.21

Aug' 21 – Present

M.D.N Public School

Intermediate
PCM; Percentage: 86%

Rohtak, Haryana
Mar' 21 – May' 22

M.D.N Public School

Matriculation
Percentage: 89.2%

Rohtak, Haryana
Mar' 19 – May' 20
